

DELTA

FIRE AND SECURITY PROTECTION

ACCESSCONTROL

www.deltafsp.com

Increasingly businesses are using managed access control including proximity cards, biometric technology and simple electronic digital code locking systems to reduce the risk of theft and unauthorised entry to their premises.

Delta specify and install a vast range of access control solutions from audio intercom systems through to fully managed PC controlled access systems.

To ensure maximum protection access control systems can be integrated with other building services including intruder alarm systems, lighting systems, gates and barriers for car park access.
