

DELTA

FIRE AND SECURITY PROTECTION

FIRE SYSTEMS

www.deltafsp.com

Whatever your environment and fire protection needs we offer a range of systems for use throughout the commercial retail and education marketplaces. Delta offers a comprehensive range of systems that we can tailor to your needs or alternatively we have the in-house expertise to design and implement a completely bespoke system for you.

Many systems provide smoke or heat detection but further protection can be provided by early smoke detection systems and extinguishing mechanisms, specific design gas systems can also be installed for server rooms and intrinsic areas.

The fire alarm and emergency lighting marketplace offers a multitude of products, Delta offer full support for design and implementation of systems for new and existing premises.
